1 box of tissues

****Students will be using lockers with combination locks. You may want to purchase a combination lock and practice opening it before the start of the school year.***

Grade 5 Math, Mr. Saba

In preparation for 5th grade math you may want to create an account on Khanacademy.org and work on the 4th grade math course. If you already have an account, please choose the 4th grade math course.

In order to prepare for 5th grade math, students should practice the following:

- Use the four operations with whole numbers to solve problems
- Understand place value from the ones place value to the millions place value.
- Add, subtract, and multiply multi-digit numbers
- Compare and order fractions
- Compare and order decimals
- Fluently know addition, subtraction and multiplication facts
- Add and subtract fractions with like denominators

(For example: $\frac{1}{5} + \frac{2}{5} = \frac{3}{5}$, $\frac{3}{4} - \frac{1}{4} = \frac{2}{4}$)
