2 boxes of tissues (For Homeroom only)

****(OPTIONAL: Students will be using lockers with combination locks. You may want to purchase a combination lock and practice opening it before the start of the school year.)***

Grade 5 Math, Mr. Saba

In preparation for 5th grade math create an account on Khanacademy.org and work on the 4th grade math course. If you already have an account, please choose the 4th grade math course.

In order to prepare for 5th grade math, students should practice the following:

- Use the four operations with whole numbers to solve problems
- Understand place value from the ones place value to the millions place value.
- Add, subtract, and multiply multi-digit numbers
- Compare and order fractions with like-denominators.
- Compare and order decimals
- Fluently know addition, subtraction and multiplication facts
- Add and subtract fractions with like denominators

(For example: $\frac{1}{5} + \frac{2}{5} = \frac{3}{5}$, $\frac{3}{4} - \frac{1}{4} = \frac{2}{4}$)

Any questions please email ssaba@philasd.org.

To: 5th Grade Students and Families

From: Mrs. Reed

Subject: Required Summer Reading

Greetings future GAMP students and families,

I am so excited about our upcoming school year! In preparation for our time together, please read the following novel, ***Wink*** by Rob Harrell. As you read, please take notes. Notes should include events or moments that stand out to you, the introduction of characters, what problem the character(s) face within the story, what is the solution, and more. Be ready to share, discuss, and assess. We will have classwork assignments based on this novel.

While we have our assignment, I encourage each of you to take this summer to relax and recharge over this break. Let's be ready to take on the 2023-2024 school year fully energized! Looking forward to our new journey on September 5, 2023. If you have any questions please feel free to email ldeloach@philasd.org.

Sincerely,

Mrs. Reed
