

Science Supply List - 7th Grade

Hello everyone!

As summer is winding down, school is right around the corner! Here is the list of school supplies that there may be additional items that may need to be purchased throughout the year, such as poster board, that you will be responsible to obtain.

Supplies to help us in the classroom:

Please bring to Mr. Larkin room 107

- Paper Towels (2)
- Box of tissues (2)
- Lysol Disinfecting Wipes
- Pack of printing paper (optional)

These supplies I found to be helpful for 7th grade, especially for my science class!

Your English, social studies, and math teacher should also be sending out their supply lists as well. Some of these lists may overlap; that's okay! Just make sure you have what you think you need for each class.

Please bring with you to each science class:

- Notebook - spiral or marble
- Folder or binder section for worksheets
- Pencils
- Dry erase markers
- Calculator (we will have some equations) - I have some but not enough for everyone

Other supplies not necessary but may be beneficial

- Ruler, colored pencils, highlighter, sharpeners
